

TCP's LED Pro Line High Lumen Panel luminaire features back-lit technology with a robust construction that still offers a slim, low profile with beautiful full-panel diffusion and superior uniformity. These energy-efficient luminaires offer a cost-effective solution to maximize energy savings and take advantage of potential utility rebates where applicable.

Applications: T-bar Grid Ceilings

Reasons to choose the LED Pro Line High Lumen Panel from TCP

- Superior energy efficiency compared to fluorescent alternatives, providing instant energy savings and potential rebate ability
- Long 50,000 hour rated life significantly reduces maintenance labor and material costs
- Excellent color consistency and high CRI enhance color of focal point while maintaining uniformity throughout lighting installation
- Mercury-free construction is great for all environments
- Fits standard 1" and 9/16" T-bar grid ceilings
- Utilizes back-lit technology for full diffusion with excellent uniformity
- Slim, low-profile design and lightweight for easy handling

Ideal Applications

- Office
- Retail Stores

- Schools
- Hospitality

- Restaurants
- Healthcare

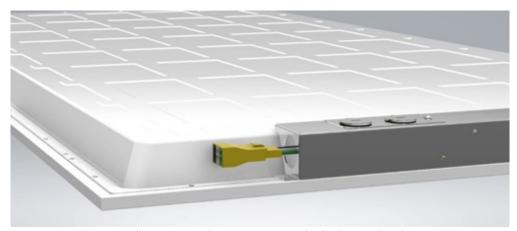

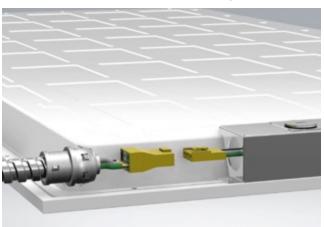

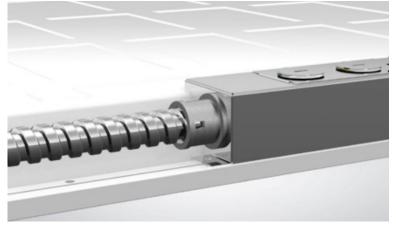

LED Pro Line High Lumen Panel

Fast, easy installation with TCP Quick Connect Wiring

6 node prewired connector included standard.

Install like a PRO with TCP's new Pro Line High Lumen Panel

- Time is money Two-step wiring system reduces wiring install time by 75%
- Daisy Chain ready Included 6-node connector allows for fast daisy chaining
- Controls? No problem 0-10V lines included in driver compartment

LED Pro Line High Lumen Panel

Specifications

Input Line Voltage	20-277 VAC
Input Line Frequency (Hz)	
Wattage (W)	
2'x4'95W/	75W/60W
Lumens (L)	
2'x4'11,400L/9,00	00L/7,200L
Lumens per Watt (LPW)	120 LPW
Rated Life5	0,000 hours
Minimum Starting Temperature	20°C
Maximum Operating Temperature	40°C
CRI	80
Power Factor	>90%
THD	<20%
RatingsUL/cUL damp location rated, IC	rated, IP20
Controls0-10V dimmir	ng (standard)

2' x 4' Pro Line High Lumen Panel

2x4 LED Pro Line High Lumen Panel

Applications

TCP LED Pro Line High Lumen Panel Luminaires are cost-effective, high-efficiency alternatives to traditional T5, T8 and T12 linear fluorescent troffers. Featuring a slim, low-profile design, our LED Pro Line High Lumen Panel luminaires use back-lit technology to deliver full panel diffusion and superior uniformity that meets or exceeds the output from edge-lit panels. Applications include offices, schools, retail locations, healthcare, hospitality and other T-grid and commercial ceilings.

Construction

- Rectangular white frame
- Lens: frosted white diffuser
- IP20 rated
- IC rated for direct contact with insulation
- Designed for easy drop in T-bar grid ceilings
- T-bar grid clips included as standard

Electrical

- UL/cUL damp location rated
- 0-10V dimming driver (standard)
- LED driver with integrated junction box
- System rated for long 50,000 hour life

Optics

- Back-lit technology provides even, uniform lighting
- 120° beam angle
- Frosted diffuser for reduced glare and aesthetic appeal
- Meets or exceeds the look and performance of edge-lit panels

TECHNOLOGY CAST IN A BEAUTIFUL LIGHT

For over 30 years, TCP has been designing, developing and delivering energy-efficient lighting into the market. Thanks to our cutting-edge technology and manufacturing expertise, we have shipped billions of high quality lighting products. With TCP, you can count on a lighting product that is designed to meet the needs of the market - that transforms your surroundings and envelopes you in warmth - lighting that generates beauty with every flip of the switch.
